MRS. J. F. DOUGLAS DIED YESTERDAY

PASSED AWAY AT RESIDENCE OF DAUGHTER, MRS. C. D. BELLOWS

NODAWAY CO. PIONEER

Survived by Two Daughters, One Son and Five Grandchildren—Funeral at 2:30 p. m. Tomorrow.

Mrs. J. F. Douglas, for almost fifty years a resident of Nodaway County, died yesterday afternoon in Maryville at the home of her daughter, Mrs. Charles D. Bellows.

The funeral services will be held at 2:30 o'clock tomorrow afternoon at the home of Mr. and Mrs. Bellows, 420 South Fillmore street. It is expected that the Rev. R. E. Snodgrass, now out of town, will return in time to conduct the services. Burial will be in Miriam cemetery, by the side of her husband, who died five years ago.

Mrs. Douglas will be best remembered as one of Nodaway County's pioneer farm wives. Born in Barry, Ill., in 1839, she grew to womanhood there as Elizabeth Staker. Joseph F. Douglas met and won her there. For five years after their marriage at Clayton, Ill., in 1864, the young couple remained in Illinois. Then they moved to Missouri early in 1870, settling in Nodaway County.

The Douglas farm, as it is still known, is six miles east and a mile south of Maryville. Mr. Douglas was its second owner, as he made the purchase from the man who made the original entry for the prairie land. Mr. and Mrs. Douglas, in coming to Maryville, were among the first passengers here on the Burlington, which had just been textended to Creston.

The present Douglas school, across the road from the old farm, takes its name from Mr. Douglas and his brother, William, who had preceded him to Nodaway and who lived on an adjoining farm.

For thirty-seven years Mr. and Mrs. Douglas remained on the farm. Then, in 1907, they moved to Maryville, where Mr. Douglas died in 1914. Most of the last four years Mrs. Douglas, who was in poor health, spent in Los Angeles, Cal., accompanied by her daughter, Miss Nelle Douglas. A year ago last winter Mrs. Douglas had trouble with pneumonia, from which she never entirely recovered. This, with a complication of other diseases, caused her death.

Mrs. Douglas was converted in early life and was a regular attendant at the Christian Church as long as her health permitted. She loved to read and to listen to good sermons.

Surviving Mrs. Douglas are two daughters, Mrs. Bellows and Miss Nelle Douglas; one son, Jesse E. Douglas, who lives three miles southwest of Maryville; five grandchildren, Dale, Fred, Miss Mildred and Charles Bellows, Jr., and Jesse Douglas, Jr.; and one great-granddaughter, Emma Ruth, the daughter of Mr. and Mrs. Dale Bellows.

To Have Basket Dinner Sunday.

Sunday is Sunday School Day for the South M. E. Church and after the morning services, a basket dinner will be given at the Normal Park if the weather permits. If it should rain, the dinner will be given at the church. Sunday school will be held at 9:30 o'clock and the morning service at 11 o'clock.

REPAIRS OF S. T. A. BUILDING PROGRESSING

The Stage in the Auditorium Is Being Altered, Permitting the Auditorium To Be More Easily Heated.

The repairs that are being made on the north wing of the State Teachers College building which was damaged by a tornado some time ago are proceeding rapidly. The roof ,which was lifted off by the storm, is all under cover and will be finished in two weeks. The skylights are now being replaced and as soon as the window glass arrives the many windows broken will be put in place.

The stage in the auditorium is being changed. Instead of being of an open style as it has been, heretofore, it is being altered in a way to conform with late architectural designs permitting the auditorium to be more easily heated. It is expected that all the repairs will be completed within six weeks or two months.

5.26 INCHES RAIN FIRST 12 DAYS

RAINFALL FOR 12 DAYS EXCEEDS NORMAL AMOUNT FOR THE ENTIRE MONTH

WHEAT HAS SUFFERED

637,000 Bushels of Wheat Destroyed in May Alone by Heavy Rains—Other Crops Good.

The rainfall for the first twelve days of June amounts to 5.25 inches which is .19 inches more rain than the average rainfall for the entire month of June for the last twenty-five years, according to U. S. Weather Observer J. R. Brink. The greatest rainfall for the month of June was in 1909 when 9.76 inches of rain fell and the least recorded rainfall for the same month was in 1911 when 1.06 inches fell.

On the face of statistics compiled jointly by the federal and state boards of agriculture for the month of May it is reported that the heavy rainssof that month did $1,407,700 damage to the Missouri wheat crop, 637,000 bushels having been destroyed.

The average wheat crop is estimated at 17 bushels an acre, or a total of 71,786,000 bushels, worth $158,647,000, the report states.

On the whole agricultural conditions in the state are far above the average. Corn, oats, and hay bid fair to make a good yield. It is indicated that the oats crop will yield 41,725,900 bushels the report states.

Undoubtedly the heavy rains of June so far, have materially added to the damage done in May, as far as the wheat crop is concerned. Other crops have not suffered so much.

PAVING PROJECT UP AT HOPKINS

HIGHWAY IMPROVEMENTS DISCUSSED LAST NIGHT.

PICKENS MAKES A TALK

Paving and Road Drag Committees Selected at Meeting Last Night—7 From Maryville Attend.

Preliminary plans for the improvement of the highways of Hopkins and surrounding country were taken up at a meeting of over 75 citizens and representatives of surrounding towns at the New Linville Hotel at Hopkins last night.

The meeting was called by Mayor C. E. Donlin, primarily for the purpose of discussing the means by which the streets of that place might be oiled during the coming summer months, but after considering the matter from all angles, it was the general concensus of opinion that pavement of the streets would be a more beneficial and permanent solution of the road question there.

The citizens of Hopkins who attended the meeting expressed the general opinion that the paving of some of the down streets would meet with the approval of the majority of the voters and it was decided to select a committee to make investigation of the cost and materials used in pave- away county. W. L. Morehead, C. H. ments in other towns throughout Nod- Sayler and Edward Fike were selected as the committee to make this investigation, and will present a report of their findings at some future meeting to be called by the mayor. Although it was generally conceded that the oiling of the streets would be only a temporary improvement, the committee will also investigate the cost of this work. In the event that the voters do not wish the paving, the streets will probably be oiled.

Secretary George A. Pickens of the Maryville Commercial Club, made an address at the meeting in which he brought out the advantages of road dragging.

Samuel Robbins and Pettis Lewis were selected as the committee to arrange a definite program for this sort of work during the summer.

The following attended the meeting from Maryville: Mayor W. O. Garrett, Fred Hull, Ed Curfman, Fred Wolfers, W. N. Deatherage, C. F. Remus and G. A. Pickens.

HIGHWAY COM. MAN TO SPEAK ON "HARD ROADS"

H. D. Judson of St. Joseph, and A. D. Folker of Columbia, Guests at Com'l Club Tonight—Farm Bureau Meeting.

H. D. Judson of St. Joseph, Divisional Engineer of the State Highway Commission, will deliver the principal address at the banquet which will be held at 8 o'clock tonight at the First M. E. church under the auspices of the Commercial Club. In addition to the large number of business men of the city who have signified their intention of attending the diner, A. D. Filker, of Columbia, Assistant Farm Agent Leader under the United States Department of Agriculture, and the members of the executive committee of the Nodaway Farm bureau will attend.

Mr. Judson will take as his subject tonight "Hard Roads." He has been connected with this and similar road problems for several years and is probably one of the best informed men on this subject in Missouri today. He will bring out in his talk the advantages of the hard roads system, both to the farmers and to the people of the cities.

Mr. Folker has called a meeting of the executive committee of the Farm Bureau at 6:30 o'clock tonight at the Commercial Club rooms. It is expected that a definite step toward the selection of a County agent for Nodaway will be made at this time. The latter session will adjourn to the First M. E. church at 8 o'clock, and it is probable that Mr. Folker will make a short talk following the dinner.

A delegation from Hopkins will attend the dinner tonight, the road question being one of considerable interest there at this time.

ANNUAL BASKET DINNER AT WORKMAN CHAPEL SUNDAY

Interesting Program Arranged—Rev. Kerr of Clearmont, to Preach in Morning—Quartet From Maryville.

Workman Chapel will hold its annual basket dinner next Sunday and an interesting program has been arranged to celebrate the event. Rev. Kerr, pastor of the Clearmont Methodist church, will preach in the morning and music will be furnished by the Mt. Pleasant choir and Misses Lucile and Letha Lawson, who will sing a duet. Following the dinner at noon, Rev. C. R. Green, pastor of Harmony church, will give an address. Several musical selections will be given by a male quartet from from this city, composed of H. J. Becker, Rev. R. E. Snodgrass, Hal Catterson and W. E. Goforth, and the Harmony choir will also sing. Everyone is invited to come and bring well filled baskets. The committee having charge of the affair is Marion Curry, M. E. Buzzard, E. F. Hornbuckle and E. Perry.

OFFICERS TO MEXICAN BORDER FOR SERVICE

American Military Authorities Along the Border Are Watching The Situation.

Camp Devens, June 13.—From an authoritative source today it was learned that twenty-five first and second lieutenants will shortly leave for the Mexican border for active service. The army officers here declare that the situation in Mexico is becoming acute and point to the fact that plans have been made by the government for the transfer to points along the border of an army division now on its way to this country from France.

El Paso, June 13.—The federal outposts and rebels are fighting west of Juarez, according to couriers riding in from the scene of action today.

The American military authorities along the border are watching the situation and taking all necessary precautions.

PEACE TERMS TO GERMAN NATIONAL ASSEMBLY.

Copenhagen, June 13.—President Ebert of Germany, and Bernstorff, the former German ambassador to the United States, left for a meeting of the national assembly at Weimar, which will pass upon the acceptance or the rejection of the peace treaty, said a dispatch from Berlin today. The terms are expected to be handed to the assembly of men tomorrow.

Strange Freak of Recent Cyclone Carries $45 Check Distance of 45 Miles.

The following is taken from the Barnard Bulletin:

What is perhaps one of the strangest freaks of the cyclone which passed through here about a month ago, is the finding of a check belonging to Mrs. J. B. Elliott in a pasture near Denver, Mo., forty-five miles away.

The check was an old one, given on April 26, 1904, to Jess Winger for $45.00 and drawn on the Farmers Bank of Maitland. It had been placed in an old trunk and the trunk placed out of the way. The trunk was found near the river and on Ed Cliser's farm with the lid open and the contents gone.

Below is a part of the letter accompanying the check:

Denver, Mo., 6-2-1919.

Mrs. J. B. Elliott—In walking over my pasture Thursday after the storm which I saw in the News-Press, had destroyed your home on Saturday night I found the enclosed check. I live two and a half miles northeast of Denver, Mo.

Yours truly,
J. E. RICHMOND.

WAS HONORED BY TWO GOVERNMENTS

SERGEANT ORLEN KELLY OF 89TH HERE—HOME IN MARYVILLE

LED A DARING DRIVE

Winner of Distinguished Service Cross and French Croix de Guerre for Exceptional Bravery.

Sgt. Orlen Kelly, son of Henry Kelly of this city, arrived home last night after a year's active service at the front with the 365th infantry of the 89th division, during which time he won the Distinguished Service Medal of the United States government and the French Croix de Guerre, for especially meritorious bravery in action.

Sergt. Kelly won the two high war honors in the great battle of the Meuse-Argonne. On Nov. 7 his company, which had been reduced to only 35 men of the orginal 250 quota, was placed in a sector before Pouilly, France. The point was one of the most important along that front and it was imperative that the position be taken, although the treacherous Meuse river separated the American troops from the town. A call was sent out for volunteers to inspect the region across the river, and although the bridges had been blown out by the shell fire of the eGrmans, Kelly and four other lads determined to make the attempt. They crossed the river on the fragments of the bridges and in the very midst of the Germans got the lay of the land and other information which they returned to headquarters.

When the information had been returned a drive was started on the German positions and again Sergt. Kelly was to the fore. When his company landed on the other side of the river the Lieutenant in charge was killed by a German bullet. He turned the little group of men over to Sergt. Kelly who kept order and held the enemy at bay while re-inforcements were being brought up.

Sergt. Kelly was on the front at the time the armictice was signed, and tells

LABOR SITUATION CAUSES ALARM

THREATENED GENERAL STRIKES IN FRANCE AND ITALY SERIOUS

ALLIES REPLY COMPLETED

To Demand That Germans Sign Treaty Without Further Squabbling—Jugo-Slavs Dissatisfied.

Washington, June 13.—The growing seriousness of the labor situation in France and Italy is causing even more alarm in the peace conference circles than is revealed in the press dispatches from Paris, according to information reaching here today. If violent disorders accompany the threatened general strike in France next Monday and the government is unable to put down the trouble at once, it is believed possible here that Germany may ignore the allied ultimatum and quit pending the outcome of the labor struggle before signing the peace treaty.

The exact situation in Italy where a general strike is being threatened in conjunction with the French movement is not made clear in advices received here but there is no doubt that France now faces the most serious labor disturbance of many years, with certain radical elements attempting not only the overthrow of Clemenceau government but a revolution generally

Paris, June 13.—The Allied reply to the German counter-proposals have been completed, it was learned today. The only question which remains to be settled refers to the minor matters in corrections of verbiage in the League of Nations constitution and the size of the armies of occupation. President Wilson will leave for Brussels, probably Sunday night, returning to Paris Wednesday. He is much gratified over General Pershing's announcement that three hundred and eighty-seven thousand American troops will sail for home this month, breaking all records.

It is now most likely that the President will sail from Brest for home the latter part of next week. It is a generally accepted fact now that the Germans must accept the treaty terms without further squabbling. It has been made plain to them that a refusal would result in far more drastic terms in the future.

Fiume, June 13.—The Croats are holding mass meetings in all three towns urging the Jugo-Slav peace delegation to refuse to sign the peace terms, sacrificing the Slav interests in Serbia, Croat and Slavonia Masons have decided to form an allied grand Jugo-Slav lodge with headquarters in Belgrade.

What Our Boys Did Over There

The following is a brief history of the activities of the 89th Division with which so many of the Nodaway county boys were connected and a citations which that division received.

On August 4 the 89th Division was ordered to the front and on August 10, took over a sector northwest of Toul where they began fighting on the twelfth. From the twelfth to the fifteenth the division was engaged in the St. Mihiel offensive. From then until October 8, it held the sector from Xammes to Bois De Dampvitoux. From the eighth to the nineteenth the boys had a rest, being held in reserve for the Meuse-Argonne offensive. On the twenty-first and twenty-second the Meuse-Argonne offensive was begun and continued until November 11. Following the signing of the Armistice the 89th hiked to Hallas, France, hoping to be ordered home but November 24, it was chosen to be a unit of the Third Army of Occupation with which organization they were until finally ordered home.

An extract of General Orders No. 26 which contains a citations of the 89th Division is as follows: "The 89th Division, American E. F. (Major General William M. Wright, Commanding) proceeding the attack of November 1, cleaned up the difficut and strongly held Bois De Bantheville and attacked on November 1. It broke through the enemy's lines, advanced strongly day and night, defeating the enemy and his reserves in its front, and drove him across the Meuse. Uunder heavy shellfire and against stubborn resistance, it constructed bridges and established itself on the heights. The cessation of hostilities found this Division holding strong positions across the Meuse and ready for a continuance of the advance."

(Signed) C. P. SUMMERALL,
Major General, Commanding.

Another citation reads:

To the Commanding General, 89th Division.

"In addition to my telephone message, I desire to convey to you and to the officers and soldiers of the 89th Division my profound appreciation and great admiration for the splendid manner in which the division accomplished the mission allotted to it in the advance on the 5th Corps of November 1.

With a dash, courage and speed worthy of the best traditions of the service, the 89th division quickly overran the enemy's strong organization, followed its barrage, and planted itself on all objectives, in accordance with the schedule previously arranged. It has captured many prisoners, guns and spoils of war, showing that the enemy was afforded no opportunity to escape.

The division has more than justified the high confidence of the Commander-In-Chief when he selected it to form the advance in the great operations that have begun.

It is high honor to command such troops, and I beg that you will convey to your officers and soldiers the assurances of my abiding wishes for their continued success in the campaigns that lie before it."

(Signed) C. P. SUMMERALL,
Commanding 5th Corps.

K. OF C. WILL ERECT TWO BUILDINGS AT PANAMA

Arlington, Mass., June 13.—James M. Mead, State Treasurer of the Knights of Columbus, has left for Panama to superintend the construction, for the national K. of C., of two buildings, at either end of the Canal Zone, which are to be used as wellfare centres for United Soldiers and sailors.

These buildings are to be erected at once, one at Cristobel, on the Atlantic side, and the other at Balboa, on the Pacific. They are to be of concrete and will cost in the vicinity of $40,000 each. They are to be so appointed and equipped as to meet the recreational amusement and educational needs of the 25,000 men of the service who are practically isolated in the Canal Zone and, it is expected, will prove an agency of great moral betterment.

Use Fireless Cooker To Keep Lunch Hot

When doing many kinds of winter farm work men find it necessary to carry a noon lunch. Without the aid of a fireless cooker this meal is usually cold and consequently unappetizing on a day when the mercury hovers near the zero point.

A home-made fireless cooker constructed from a galvanized iron bucket with a cover, according to directions given in Farmers' Bulletin 771—on home-made fireless cookers and their use—will enable a hot meal to be served in the woods or elsewhere on the coldest of days. There is little time or expense entailed in the manufacture of these time savers and comfort givers.

COAL SUPPLY DECREASES.

Pittsburgh, Pa., June 13.—The coal resources of Western Pennsylvania, which at one time were thought to be inexhaustible, will be almost completely exhausted in sixty years, according to E. M. Herr, president of the Westinghouse Electric and Manufacturing company. Mr. Herr declared that not only the Pennsylvania coal fields were running out but that other newer fields had suffered unexpected inroads due to increased production demanded by the war.

"ARTISTIC TEMPERAMENT."

Springfield, Ill., June 13.—Temperament in a noted violinist got the best of an audience here. The fiddle virtuoso was playing a selection of "Cancion d'Amor" before an assemblage of the Y. W. C. A. Some one shuffled his feet. The player struck a "blue" note. Then some one whispered. Laying his violin on a nearby table the testy entertainer said:

"Either you or I will make the noise in this concert. If you insist on talking while I play, then I shall quit playing or you shall go outside to talk."

Nobody went outside and the playing continued in quietness.

Glidden, Iowa, June 13.—Glidden discovered a coincidence in the welcome home of two of her soldier boys. The two, Privates Robert Dillavon and Levi Chapin of the Sixteenth Infantry, enlisted here the same day and were assigned to the same regiment. Although in the same regiment, they did not see each other while in France until last September, when Chapin, taken sick and sent to the hospital, found Dillavon, who was there suffering from three wounds received in July. That was the last time they saw each other until they stepped from the same train here. Both were discharged at the same camp, and evidently traveled home on the same train, but without meeting.

GRAIN OF CORN KILLS BOY.

St. Louis, Mo., June 13.—A grain of corn lodging in the windpipe of Paul Dorias, Jr., five year old son of Mr. and Mrs. Paul Dorias of Dardenne, St. Louis county, caused his death at the Jewish hospital.

The child was playing in a field with two playmates and had shelled some corn, placing the grains in his mouth. A remark made by one of his playmates caused him to laugh and the corn was drawn into his windpipe.

YOUR CATARRH MAY LEAD TO CONSUMPTION

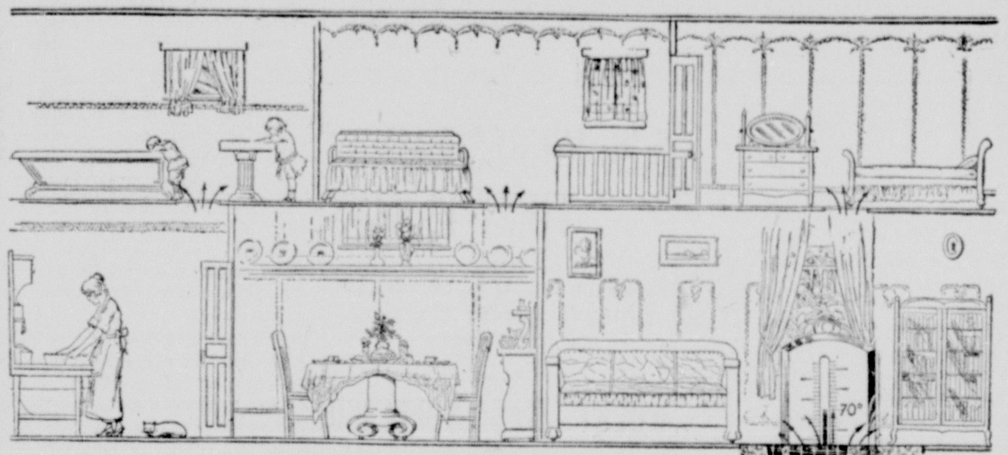
Dangerous to Use Treatment for Only Temporary Relief.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle today, begin the only logical treatment that gives real results. For free medical advice write Medical Director, 47 Swift Laboratory, Atlanta, Ga.

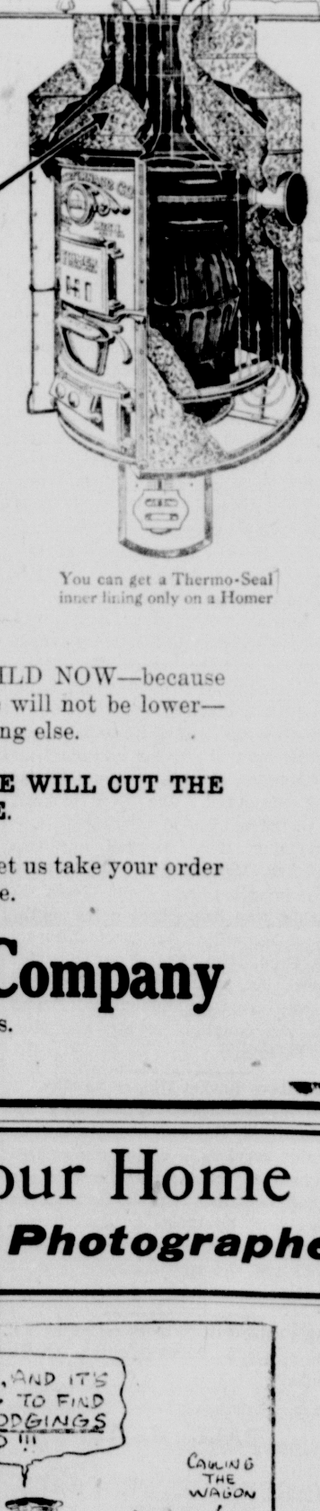
Healthful Heat from a PIPELESS FURNACE



YOUR HOME is just as comfortable as your heating system is efficient. Cold and stuffy rooms, or rooms filled with comfortable, healthful heat of the proper humidity—which?

The Homer—the original patented pipeless furnace—answers the problem—sufficient moist warm air and proper ventilation. Simple in construction and simple in operation, the Homer warms and purifies all the air in the house with the least amount of trouble.

The Homer heats so satisfactorily because it works with nature in distributing the warm air to every nook and corner. There are no dust-collecting and heat-absorbing pipes.



You can get a Thermo-Seal inner lining only on a Homer

HOMER ORIGINAL PATENTED PIPELESS FURNACE

with the Thermo-Seal inner lining

Whenever there is a fire in the Homer there is a circulation of pure, warm air in the house. The Thermo-Seal inner lining sees to that. The dead air in the house, heavier than the warm air, returns to the furnace, where it is heated, sterilized and moistened. Then it goes direct to the rooms you want warm and cozy.

The Homer is the only furnace with the Thermo-Seal inner lining—the special asbestos lining protected by two heavy sheets of galvanized steel. It keeps the heat from radiating into the cold air passage. It means perfect circulation.

The Homer does all its work through one combination register. And because it is so simple it costs less to install and operate than any other type of furnace.

It takes only a few hours to set up a Homer in any house, old or new, without tearing out the walls or making a muss.

Ask for "Their Own Words"—a booklet written by Homer owners. Let them tell you what the Homer is doing for them. "Healthful Heat" explains the Homer, the Thermo-Seal inner lining and the Scrolled iron in detail. There are copies of these books for you at the dealer's.

If you are thinking of building a home, BUILD NOW—because prices of building material and building hardware will not be lower—and they are not high now compared with everything else.

THE INSTALLATION OF A HOMER FURNACE WILL CUT THE COST OF BUILDING A HOME.

Come in and let us show you this furnace, and let us take your order for future installation. Don't wait until it is too late.

Longchamps Set Fashion Pace.

Paris.—Startling new fashions in women's apparel have made their appearance at the Longchamps race course, where the Parisian smart set annually sets the styles. In addition to appearing with bare legs, the women are wearing extremely tight gowns, cut very short at the bottom and very low at the top. The arms are exposed unless covered by a cape.

Dressmakers declare the women's dresses are to be shorter than ever this season and are to be cut down further in the front and back.

Nothing is worn underneath the newest gowns but girdles and lingerie.

Paul Poiret and his fellow creators of fashion for some time have been working on the brilliant costumes that draw as many to the famous Longchamps as do the track events.

The blazes of costumed glory are now the more conspicuous by their absence during the past four years when Paris was practically in mourning. Never has the capital seen such gowns; the cuts and characteristics are the result of long study on the part of the artists who seek to outdo each other in their offerings for the world's attention.

The display at the recent races have compelled the interest and admiration of all attendant at the track and Parision fashion connoisseurs are as loud in their praise as are visiting foreigners, among whom are our own officers, several of whom have been well known designers and creators before joining the colors.

Monthly Conference Tonight.

The monthly Workers and Teachers conference will be held tonight at the Baptist church. Supper will be served at 6:30 o'clock.

Surprise Mr. Barrett.

After a few friends of Mr. and Mrs. F. H. Barrett had assembled at the J. O. Miller home Wednesday evening, June 11, they marched to the Barrett Merc. Co's. store and invited Frank Barrett to go to his home with them that they might help him celebrate his birthday. From the way he acted he knew nothing about the plans Mrs. Barrett had laid and was just a little surprised. The evening was pleasantly spent playing somerset and before the departure of the guests, dainty refreshments were served by the hostess. The guests included Mr. and Mrs. J. O. Miller, Mr. and Mrs. G. L. Owen, Mr. and Mrs. R. A. Walker, Mr. and Mrs. H. W. Montgomery, Mr. and Mrs. W. G. Reynolds.—Skidmore News.

Mrs. Denver Loch, a new member, was received into the club. The next meeting will be with Mrs. Pat Scott.

O'Malley-McElvain.

The following account of the marriage of Miss Grace O'Malley of Albany to Clifford A. McElvain of Redding, Ia., which occurred in Chicago Wednesday is taken from this week's Albany Ledger:

The many friends of these worthy people will be pleased to learn that Lieutenant Clifford A. McElvain and Miss Grace O'Malley were married at Chicago at 4 o'clock yesterday afternoon. The announcement does not come as a surprise to the friends, but all will unite in extending heartiest congratulations and best wishes.

Albany cannot boast of two finer young people than Clifford and Grace. The bride is the elder daughter of Mrs. Mary O'Malley and was born in Albany and spent most of her life here. She graduated from the high school at Maryville and then attended St. Mary's college at Norte Dame, Indiana, where she graduated with high honors. For several years she taught in the high school here, but last fall received an appointment to government work in Washington City, where she went in September in company with her mother, and where she had lived until the first of June. She possesses many graces which make her beloved by all who know her, and those of us who know her best realize her real worth.

Clifford has been more or less in the public eye during the past year or so on account of his war record and his having been captured by the eGrmans during an aerial combat the first of last August. After finishing his high school course he took a business education and for some time was assistant cashier in the Bank of Albany. He was among the first of the young men to volunteer for the officers' training school two years ago, and he was successful in winning a commission as lieutenant in aero service. He returned home a few months ago, having been honorably discharged. In company with some other men, he bought a bank at Redding, Iowa, and he is at present cashier of the institution. He is an intelligent and industrious young man of high character, and is full of business.

The happy bridal couple expect to go to Redding soon and begin housekeeping, where the best wishes of all will follow them.

TO "BIG BROTHER" THEIR COUSINS FROM THE FARM.

St. Louis, June 13.—The people of St. Louis should 'big brother' the people of rural communities in this city's trade territory by extending the right hand of good fellowship and co-operation, declared Frank B. White of Chicago, managing director of the Agricultural Publishes' Association, in an address before the Advertising Club here.

"We want to be a nation of homes," said White "and homes must be in he country. We people in the cities are cliff dwellers. We live in a hole in the wall and not as Americans ought to live."

Elmer Trueblood of Oklahoma City, Okla., came Wednesday night to spend a few days with his father, W. E. Trueblood, and his sister, Mrs. S. G. Gillam.

TELL THE WORLD THIS WOMAN SAYS

That Lydia E. Pinkham's Vegetable Compound made Me a Well Woman.

Los Angeles, Cal.—"I suffered with female troubles for years, was sick most of the time, was not able to do my own housework, and I could not get help from doctors. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers, and took six bottles, and am a well woman. You can use my name to tell the world the good your medicine has done me as I shall praise it always."—Mrs. A. L. DeVINE, 647 St. Paul Avenue, Los Angeles, Calif.

Women who suffer from any form of weakness, as indicated by displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues," should do as Mrs. DeVine did, and give Lydia E. Pinkham's Vegetable Compound a thorough trial.

For over forty years this famous remedy, which contains the curative, strengthening properties of good old fashioned roots and herbs, has been correcting just such ailments. If you have mysterious complications write for advice to Lydia E. Pinkham Medicine Co., Lynn, Mass.

POLICE SERGEANT ASKS TO BE MADE PRIVATE.

Springfield, Mass., June 13.—Police Sergeant Edward Carey has earned a unique distinction in petitioning to the Police Commissioner to be demoted to the rank of patrolman. The request has been granted by the Police Commissioner.

Carey was appointed sergeant several months ago as a reward for his splendid record as a patrolman. The work was not as fascinating as he had bargained for, however, as a sergeant is shifted at monthly intervals between the three watches and must often put in as many as ten and twelve hours a day making reports.

Accordingly, he came to the conclusion that a nice day job of eight hours with two days off a month is to be preferred to a sergeant's chevrons, a half dollar more a day and the honor of working many hours overtime.

Army Worm Outbreaks.

The Missouri College of Agriculture is receiving complaints of army worms in wheat, alfalfa and other crops. The complaints are coming from several different localities which seems to show that the pest is rather widely distributed. In some cases it is beginning to migrate.

To control the pest, says L. Haseman of the niversity of Missouri College of Agriculture, use the same poison bran-mash which was recommended last year for grasshoppers and cut worms. Mix dry fifty pounds of bran and two pounds of white arsenic or Paris Green and then moisten with a solution containing four quarts of blackstrap molasses, the juice and chopped up rinds of twelve lemons and about eight gallons of water. The mash should be just moist enough that a few drops of water can be squeezed from a handful of it.

Distribute the mash broadcast where the pest is scattered all over fields or distribute it in strips in front of the migrating worms where they are on the move. On cloudy days it may be distributed at any time but on hot clear days distribute it either early in the morning or late in the evening so that the worms will feed on it before it dries out too much.

The grasshoppers are also abundant in places in spite of the excessive rainfall of the past weeks and the same mash should be used to destroy the young hoppers before they do further damage and get ready to migrate to cultivated crops.

TALK OF DRAINAGE DISTRICT

Sentiment Strong for One From Ravenwood to Andrew County Line.

The following is from this week's Conception Junction Courier:

The recent floods have caused considerable discussion of the proposition of forming a drainage district along the Platte river in the south half of Nodaway and upper part of Andrew counties, but so far the land owners have not agreed upon how far north in this county the district should extend The sentiment in this community seems almost unanimously in favor of a district, if the north boundary is located not more than a mile and a half north of Ravenwood. The land owners in this part of the country realize that if the boundary line goes much northt of Ravenwood it will be necessary to cut the new channel through some very high land, for a considerable distance. This will prove very costly, and the land owners south of that cut will be taxed to pay this cost, although it will be of no benefit to their lands. It is generally conceded that a new straight channel would have prevented all the floods that have occurred this year and been a great saving to the farmers. We have been reliably informed that the new channel for the 102 has prevented floods, so far, this year, in the north part of Nodaway county, while the floods have been quite severe south of the new channel, which proves that straightening the river is beneficial.

COLORADO MAN HAD SUFFERED 25 YEARS

Relates His Experience With Tanlac and Wants To Help Others.

"Tanlac certainly helped me and I hope my experience with this medicine will encourage others to try it," said Antonio Lopez, who lives at Delta, Colo.

"I was a sick man for twenty-five years," continued Mr. Lopez, "and my stomach was in such a bad fix that for the last five years I wasn't able to eat any supper at all, and any kind of fruits or vegetables would cramp me so awfully that I never would touch them and I was simply miserable most all the time from the gas on my stomach. I lost considerable weight and at the time I started taking Tanlac, I weighed only a hundred and thirty-eight pounds.

"The few bottles of Tanlac I have taken built me up wonderfully and I actually gained ten pounds on my first three bottles. My stomach is in such fine conditions that I can eat anything including fruits and vegetables, without the slightest pain or trouble from gas, and I can eat as hearty a supper now as anybody and enjoy every mouthful, too."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burington Junction, Mo., and in Barnard, by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley; Ravenwood by C. A. Shunk. —Adv.

TO ALL THE QUALIFIED VOTERS OF THE CITY OF MARYVILLE, MISSOURI:

Public notice is hereby given to all the qualified voters of the city of Maryville, Missouri, that under and pursuant to the provisions of Ordinance No. 825 of said city of Maryville, duly passed by the Council and approved by the Mayor on the 31st day of May, 1919, a special election will be held in said city of Maryville, Missouri, on Thursday, the 26th day of June, 1919, for the purpose of voting on the proposition to authorize and empower the Council of said city of Maryville to increase the indebtedness of said city of Maryville in the sum of Fifty thousand dollars in addition to the regular income and revenue now provided by law for said city, by issuing and selling in the name and for and on behalf of said city of Maryville, bonds of the par value of Fifty thousand dollars, for the purpose of procuring money to enlarge, extend and improve the water works of said city of Maryville, and to levy and collect a special tax on the taxable property of said city of Maryville, in addition to the regular annual taxes now authorized to be levied in said city, to pay said bonds and interest accruing thereon.

The polling places for said special election shall be as follows:

First Ward—City Fire Station, No. 413 North Market Street.

Second Ward—Sewell Auto Company's, office, No. 114 West 4th Street.

Third Ward—Office of J. H. Gray, No. 114 West 2nd Street.

Fourth Ward—Office of Shoemaker-Bovard Transfer Co., No. 120 East 3d Street.

All in said city of Maryville, Missouri.

The polls will be opened at 6 o'clock in the morning and kept open until sun set on the day of said special election.

Tickets or ballots to be voted at said special election will be provided for voters in the following form "For increase of debt—Yes" and "For increase or debt—No." the former of which shall be taken as a vote assenting to such increase of debt of said city in the amount and for the purposes hereinbefore set forth, and the latter as dissenting therefrom.

If two thirds of the qualified voters of said city of Maryville voting at said special election shall vote "For increase of debt—Yes" then the Council of said city of Maryville shall be thereby authorized and empowered to increase the indebtedness of said city of Maryville, to the amount aforesaid by issuing and selling the bonds of said city to the amount of Fifty thousand dollars as aforesaid, for the purposes aforesaid, and to levy and collect a special tax as aforesaid to pay the principal and interest of such bonds, and to enlarge, extend and improve the water works of said city of Maryville, with the proceeds of the sale of said bonds.

Witness our hands as Mayor and City Clerk of said city of Maryville, Missouri, and the seal of said city, this 11th day of June, 1919.

a thrilling story of the last few minutes of the great world war.

"We began our last drive on the morning of Nov. 11," he said, "and most of our men were ignorant that the armistice was about to be signed. We advanced into the faces of a terrific Germans machine gun fire, and hundreds of men in our batallion were killed during the two hours just before the word came to cease firing."

Sergt Kelly stated that the men were completely wornout when the word came to stop and that as soon as the terrific thunder of the guns ceased, the men fell prostrate to the ground in heavy sleep.

Kelly received his citation for the Distinguished Service Cross at Trier, Germany, and the medal was pinned upon his greast by General Pershing, himself. The Croix de Guerre, with the star, was awarded to him at Brest, France, about two weeks before the Division sailed for this country.

Admiral Moreau of the French Naval service, made the personal presentation of the medal.

In addition to his great work in the Meuse-Argonne, Sergeant Kelly also took part in the St. Mihiel drive. After this offensive he was sent to an infantry school for 30 days before the opening of the Meuse-Argonne engagement.

Characteristic of all the men who have faced the greatest dangers of the war and who have looked into almost certain death, Kelly is modest about the honors which he has won. "I did not expect them," he said "and I only did what was expected of me. There are hundreds of fellows who have done great deeds of bravery which escaped the notice of the officers."

Mrs. Kelly, who was formerly Miss Mattie Clayton, met her husband at Kansas City Sunday and returned home with him last night.

OBJECT TO REPEAL OF WAR DRY ACT.

Missouri Christian Church Convention Raps Wilson.

Carthage, Mo., June 13.—Resolutions protesting President Wilson's recommendation for partial repeal of wartime prohibition were passed at the closing session of the Missouri Christian church convention here yesterday and officers of the conference were directed to send a message to the president expressing the uncompromising disapproval of the conference.

"We have been grieved and disappointed by the uncalled for concessions of President Wilson to the forces of intemperance," the resolution read, and they contain the further suggestion that upon the president's return to America he "acquaint himself with the true sentiment of law abiding citizens whose ideals he undertakes to interpret."

The resolutions also ask congress not to repeal the prohibition law.

Another resolution endorsing the League of Nations was amended to endorse "a League of Nations" to prevent war.

Officers elected for the coming year were:

President, L. W. McCreary, St. Louis vice president, J. W. Kilborn, Albany; recording secretary, George Buckner, Lamont; treasurer, J. W. Donaldson, Kansas City.—St. Joseph Gazette.

"DAMON AND PYTHIAS" BROUGHT UP TO DATE.

North Adams, Mass., June 13.—A modern version of "Damon and Pythias" was given in this city when Harold W. Weigert, a New York City bank clerk, was arrested by the local police for the Greenfield police on a charge of running into an automobile in that town and not stopping to report the accident. When Weigert was arrested a male companion with him in his automobile refused to leave him and went to the police station, where he was locked in the same cell with Weigert.

MRS. J. F. DO[illegible]AS DIED YESTERDAY

PASSED AWAY AT RESIDENCE OF DAUGHTER, MRS. C. D. BELLOWS

NODAWAY CO. PIONEER

Survived by Two Daughters, One Son and Five Grandchildren—Funeral at 2:30 p. m. Tomorrow.

Mrs. J. F. Douglas, for almost fifty years a resident of Nodaway County, died yesterday afternoon in Maryville at the home of her daughter, Mrs. Charles D. Bellows.

The funeral services will be held at 2:30 o'clock tomorrow afternoon at the home of Mr. and Mrs. Bellows, 420 South Fillmore street. It is expected that the Rev. R. E. Snodgrass, now out of town, will return in time to conduct the services. Burial will be in Miriam cemetery, by the side of her husband, who died five years ago.

Mrs. Douglas will be best remembered as one of Nodaway County's pioneer farm wives. Born in Barry, Ill., in 1839, she grew to womanhood there as Elizabeth Staker. Joseph F. Douglas met and won her there. For five years after their marriage at Clayton, Ill., in 1864, the young couple remained in Illinois. Then they moved to Missouri early in 1870, settling in Nodaway County.

The Douglas farm, as it is still known, is six miles east and a mile south of Maryville. Mr. Douglas was its second owner, as he made the purchase from the man who made the original entry for the prairie land. Mr. and Mrs. Douglas, in coming to Maryville, were among the first passengers here on the Burlington, which had just been textended to Creston.

The present Douglas school, across the road from the old farm, takes its name from Mr. Douglas and his brother, William, who had preceded him to Nodaway and who lived on an adjoining farm.

For thirty-seven years Mr. and Mrs. Douglas remained on the farm. Then, in 1907, they moved to Maryville, where Mr. Douglas died in 1914. Most of the last four years Mrs. Douglas, who was in poor health, spent in Los Angeles, Cal., accompanied by her daughter, Miss Nelle Douglas. A year ago last winter Mrs. Douglas had trouble with pneumonia, from which she never entirely recovered. This, with a complication of other diseases, caused her death.

Mrs. Douglas was converted in early life and was a regular attendant at the Christian Church as long as her health permitted. She loved to read and to listen to good sermons.

Surviving Mrs. Douglas are two daughters, Mrs. Bellows and Miss Nelle Douglas; one son, Jesse E. Douglas, who lives three miles southwest of Maryville; five grandchildren, Dale, Fred, Miss Mildred and Charles Bellows, Jr., and Jesse Douglas, Jr.; and one great-granddaughter, Emma Ruth, the daughter of Mr. and Mrs. Dale Bellows.

REPAIRS OF S. T. A. BUILDING PROGRESSING

The Stage in the Auditorium Is Being Altered, Permitting the Auditorium To Be More Easily Heated.

The repairs that are being made on the north wing of the State Teachers College building which was damaged by a tornado some time ago are proceeding rapidly. The roof ,which was lifted off by the storm, is all under cover and will be finished in two weeks. The skylights are now being replaced and as soon as the window glass arrives the many windows broken will be put in place.

The stage in the auditorium is being changed. Instead of being of an open style as it has been, heretofore, it is being altered in a way to conform with late architectural designs permitting the auditorium to be more easily heated. It is expected that all the repairs will be completed within six weeks or two months.

5.26 INCHES RAIN FIRST 12 DAYS

RAINFALL FOR 12 DAYS EXCEEDS NORMAL AMOUNT FOR THE ENTIRE MONTH

WHEAT HAS SUFFERED

637,000 Bushels of Wheat Destroyed in May Alone by Heavy Rains—Other Crops Good.

The rainfall for the first twelve days of June amounts to 5.25 inches which is .19 inches more rain than the average rainfall for the entire month of June for the last twenty-five years, according to U. S. Weather Observer J. R. Brink. The greatest rainfall for the month of June was in 1909 when 9.76 inches of rain fell and the least recorded rainfall for the same month was in 1911 when 1.06 inches fell.

On the face of statistics compiled jointly by the federal and state boards of agriculture for the month of May it is reported that the heavy rainsof that month did $1,407,700 damage to the Missouri wheat crop, 637,000 bushels having been destroyed.

The average wheat crop is estimated at 17 bushels an acre, or a total of 71,786,000 bushels, worth $158,647,000, the report states.

On the whole agricultural conditions in the state are far above the average. Corn, oats, and hay bid fair to make a good yield. It is indicated that the oats crop will yield 41,725,900 bushels the report states.

Undoubtedly the heavy rains of June so far, have materially added to the damage done in May, as far as the wheat crop is concerned. Other crops have not suffered so much.

PAVING PROJECT UP AT HOPKINS

HIGHWAY IMPROVEMENTS DISCUSSED LAST NIGHT.

PICKENS MAKES A TALK

Paving and Road Drag Committees Selected at Meeting Last Night—7 From Maryville Attend.

Preliminary plans for the improvement of the highways of Hopkins and surrounding country were taken up at a meeting of over 75 citizens and representatives of surrounding towns at the New Linville Hotel at Hopkins last night.

The meeting was called by Mayor C. E. Donlin, primarily for the purpose of discussing the means by which the streets of that place might be oiled during the coming summer months, but after considering the matter from all angles, it was the general concensus of opinion that pavement of the streets would be a more beneficial and permanent solution of the road question there.

The citizens of Hopkins who attended the meeting expressed the general opinion that the paving of some of the down streets would meet with the approval of the majority of the voters and it was decided to select a committee to make investigation of the cost and materials used in paveaway county. W. L. Morehead, C. H. ments in other towns throughout Nod-Sayler and Edward Fike were selected as the committee to make this investigation, and will present a report of their findings at some future meeting to be called by the mayor. Although it was generally conceded that the oiling of the streets would be only a temporary improvement, the committee will also investigate the cost of this work. In the event that the voters do not wish the paving, the streets will probably be oiled.

Secretary George A. Pickens of the Maryville Commercial Club, made an address at the meeting in which he brought out the advantages of road dragging.

Samuel Robbins and Pettis Lewis were selected as the committee to arrange a definite program for this sort of work during the summer.

The following attended the meeting from Maryville: Mayor W. O. Garrett, Fred Hull, Ed Curfman, Fred Wolfers, W. N. Deatherage, C. F. Remus and G. A. Pickens.

HIGHWAY COM. MAN TO SPEAK ON "HARD ROADS"

H. D. Judson of St. Joseph, and A. D. Folker of Columbia, Guests at Com'l Club Tonight—Farm Bureau Meeting.

H. D. Judson of St. Joseph, Divisional Engineer of the State Highway Commission, will deliver the principal address at the banquet which will be held at 8 o'clock tonight at the First M. E. church under the auspices of the Commercial Club. In addition to the large number of business men of the city who have signified their intention of attending the diner, A. D. Filker, of Columbia, Assistant Farm Agent Leader under the United States Department of Agriculture, and the members of the executive committee of the Nodaway Farm bureau will attend.

Mr. Judson will take as his subject tonight "Hard Roads." He has been connected with this and similar road problems for several years and is probably one of the best informed men on this subject in Missouri today. He will bring out in his talk the advantages of the hard roads system, both to the farmers and to the people of the cities.

Mr. Folker has called a meeting of the executive committee of the Farm Bureau at 6:30 o'clock tonight at the Commercial Club rooms. It is expected that a definite step toward the selection of a County agent for Nodaway will be made at this time. The latter session will adjourn to the First M. E. church at 8 o'clock, and it is probable that Mr. Folker will make a short talk following the dinner.

A delegation from Hopkins will attend the dinner tonight, the road question being one of considerable interest there at this time.

OFFICERS TO MEXICAN BORDER FOR SERVICE

American Military Authorities Along the Border Are Watching The Situation.

Camp Devens, June 13.—From an authoritative source today it was learned that twenty-five first and second lieutenents will shortly leave for the Mexican border for active service. The army officers here declare that the situation in Mexico is becoming acute and point to the fact that plans have been made by the government for the transfer to points along the border of an army division now on its way to this country from France.

El Paso, June 13.—The federal outposts and rebels are fighting west of Juarez, according to couriers riding in from the scene of action today.

The American military authorities along the border are watching the situation and taking all necessary precautions.

PEACE TERMS TO GERMAN NATIONAL ASSEMBLY.

Copenhagen, June 13.—President Ebert of Germany, and Bernstorff, the former German ambassador to the United States, left for a meeting of the national assembly at Weimar, which will pass upon the acceptance or the rejection of the peace treaty, said a dispatch from Berlin today. The terms are expected to be handed to the assembly of men tomorrow.

Strange Freak of Recent Cyclone Carries $45 Check Distance of 45 Miles.

The following is taken from the Barnard Bulletin:

What is perhaps one of the strangest freaks of the cyclone which passed through here about a month ago, is the finding of a check belonging to Mrs. J. B. Elliott in a pasture near Denver, Mo., forty-five miles away.

The check was an old one, given on April 26, 1904, to Jess Winger for $45.00 and drawn on the Farmers Bank of Maitland. It had been placed in an old trunk and the trunk placed out of the way. The trunk was found near the river and on Ed Ulser's farm with the lid open and the contents gone.

Below is a part of the letter accompanying the check:

Denver, Mo., 6-2-1919.

Mrs. J. B. Elliott—In walking over my pasture Thursday after the storm which I saw in the News-Press, had destroyed your home on Saturday night I found the enclosed check. I live two and a half miles northeast of Denver, Mo.

Yours truly,

SERGEANT ORLEN KELLY OF 89TH HERE—HOME IN MARYVILLE

LED A DARING DRIVE

Winner of Distinguished Service Cross and French Croix de Guerre for Exceptional Bravery.

Sgt. Orlen Kelly, son of Henry Kelly of this city, arrived home last night after a year's active service at the front with the 365th infantry of the 89th division, during which time he won the Distinguished Service Medal of the United States government and the French Croix de Guerre, for especially meritorious bravery in action.

Sergt. Kelly won the two high war honors in the great battle of the Meuse-Argonne. On Nov. 7 his company, which had been reduced to only 35 men of the orginal 250 quota, was placed in a sector before Pouilly, France. The point was one of the most important along that front and it was imperative that the position be taken, although the treacherous Meuse river separated the American troops from the town. A call was sent out for volunteers to inspect the region across the river, and although the bridges had been blown out by the shell fire of the eGrmans, Kelly and four other lads determined to make the attempt. They crossed the river on the fragments of the bridges and in the very midst of the Germans got the lay of the land and other information which they returned to headquarters.

When the information had been returned a drive was started on the German positions and again Sergt. Kelly was to the fore. When his company landed on the other side of the river the Lieutenant in charge was killed by a German bullet. He turned the little group of men over to Sergt. Kelly who kept order and held the enemy at bay while re-inforcements were being brought up.

Sergt. Kelly was on the front at the time the armictice was signed, and tells

LABOR SITUATION CAUSES ALARM

THREATENED GENERAL STRIKES IN FRANCE AND ITALY SERIOUS

ALLIES REPLY COMPLETED

To Demand That Germans Sign Treaty Without Further Squabbling—Jugo-Slavs Dissatisfied.

Washington, June 13.—The growing seriousness of the labor situation in France and Italy is causing even more alarm in the peace conference circles than is revealed in the press dispatches from Paris, according to information reaching here today. If violent disorders accompany the threatened general strike in France next Monday and the government is unable to put down the trouble at once, it is believed possible here that Germany may ignore the allied ultimatum and quit pending the outcome of the labor struggle before signing the peace treaty.

The exact situation in Italy where a general strike is being threatened in conjunction with the French movement is not made clear in advices received here but there is no doubt that France now faces the most serious labor disturbance of many years, with certain radical elements attempting not only the overthrow of Clemenceau government but a revolution generally

Paris, June 13.—The Allied reply to the German counter-proposals have been completed, it was learned today. The only question which remains to be settled refers to the minor matters in corrections of verbiage in the League of Nations constitution and the size of the armies of occupation. President Wilson will leave for Brussels, probably Sunday night, returning to Paris Wednesday. He is much gratified over General Pershing's announcement that three hundred and eighty-seven thousand American troops will sail for home this month, breaking all records.

It is now most likely that the President will sail from Brest for home the latter part of next week. It is a generally accepted fact now that the Germans must accept the treaty terms without further squabbling. It has been made plain to them that a refusal would result in far more drastic terms in the future.

Fiume, June 13.—The Croats are holding mass meetings in all three towns urging the Jugo-Slav peace delegation to refuse to sign the peace terms, sacrificing the Slav interests in Serbia, Croat and Slavonia Masons have decided to form an allied grand Jugo-Slav lodge with headquarters in Belgrade.

What Our Boys Did Over There

The following is a brief history of the activities of the 89th Division with which so many of the Nodaway county boys were connected and a citations which that division received.

On August 4 the 89th Division was ordered to the front and on August 10, took over a sector northwest of Toul where they began fighting on the twelfth. From the twelfth to the fifteenth the division was engaged in the St. Mihiel offensive. From then until October 8, it held the sector from Xammes to Bois De Dampvitoux. From the eighth to the nineteenth the boys had a rest, being held in reserve for the Meuse-Argonne offensive. On the twenty-first and twenty-second the Meuse-Argonne offensive was begun and continued until November 11. Following the signing of the Armistice the 89th hiked to Hallas, France, hoping to be ordered home but November 24, it was chosen to be a unit of the Third Army of Occupation with which organization they were until finally ordered home.

An extract of General Orders No. 26 which contains a citations of the 89th Division is as follows: "The 89th Division, American E. F. (Major General William M. Wright, Commanding) proceeding the attack of November 1, cleaned up the difficut and strongly held Bois De Bantheville and attacked on November 1. It broke through the enemy's lines, advanced strongly day and night, defeating the enemy and his reserves in its front, and drove him across the Meuse. Uunder heavy shellfire and against stubborn resistance, it constructed bridges and established itself on the heights. The cessation of hostilities found this Division holding strong positions across the Meuse and ready for a continuance of the advance."

(Signed) C. P. SUMMERALL,
Major General, Commanding.

Another citation reads:

To the Commanding General, 89th Division.

"In addition to my telephone message, I desire to convey to you and to the officers and soldiers of the 89th Division my profound appreciation and great admiration for the splendid manner in which the division accomplished the mission allotted to it in the advance on the 5th Corps of November 1.

With a dash, courage and speed worthy of the best traditions of the service, the 89th division quickly overran the enemy's strong organization, followed its barrage, and planted itself on all objectives, in accordance with the schedule previously arranged. It has captured many prisoners, guns and spoils of war, showing that the enemy was afforded no opportunity to escape.

The division has more than justified the high confidence of the Commander-In-Chief when he selected it to form the advance in the great operations that have begun.

It is high honor to command such troops, and I beg that you will convey to your officers and soldiers the assurances of my abiding wishes for their continued success in the campaigns that lie before it."

(Signed) C. P. SUMMERALL,
Commanding 5th Corps.

K. OF C. WILL ERECT TWO BUILDINGS AT PANAMA

Arlington, Mass., June 13.—James M. Mead, State Treasurer of the Knights of Columbus, has left for Panama to superintend the construction, for the national K. of C., of two buildings, at either end of the Canal Zone, which are to be used as wellfare centres for United Soldiers and sailors.

These buildings are to be erected at once, one at Cristobel, on the Atlantic side, and the other at Balboa, on the Pacific. They are to be of concrete and will cost in the vicinity of $40,000 each. They are to be so appointed and equipped as to meet the recreational amusement and educational needs of the 25,000 men of the service who are practically isolated in the Canal Zone and, it is expected, will prove an agency of great moral betterment.

Use Fireless Cooker To Keep Lunch Hot

When doing many kinds of winter farm work men find it necessary to carry a noon lunch. Without the aid of a fireless cooker this meal is usually cold and consequently unappetizing on a day when the mercury hovers near the zero point.

A home-made fireless cooker constructed from a galvanized iron bucket with a cover, according to directions given in Farmers' Bulletin 771—on home-made fireless cookers and their use—will enable a hot meal to be served in the woods or elsewhere on the coldest of days. There is little time or expense entailed in the manufacture of these time savers and comfort givers.

COAL SUPPLY DECREASES.

Pittsburgh, Pa., June 13.—The coal resources of Western Pennsylvania, which at one time were thought to be inexhaustible, will be almost completely exhausted in sixty years, according to E. M. Herr, president of the Westinghouse Electric and Manufacturing company. Mr. Herr declared that not only the Pennsylvania coal fields were running out but that other newer fields had suffered unexpected inroads due to increased production demanded by the war.

"ARTISTIC TEMPERAMENT."

Springfield, Ill., June 13.—Temperament in a noted violinist got the best of an audience here. The fiddle virtuoso was playing a selection of "Cancion d'Amor" before an assemblage of the Y. W. C. A. Some one shuffled his feet. The player struck a "blue" note. Then some one whispered. Laying his violin on a nearby table the testy entertainer said:

"Either you or I will make the noise in this concert. If you insist on talking while I play, then I shall quit playing or you shall go outside to talk."

Nobody went outside and the playing continued in quietness.

Coincidence in Yanks' Lives.

Glidden, Iowa, June 13.—Glidden discovered a coincidence in the welcome home of two of her soldier boys. The two, Privates Robert Dillavon and Levi Chapin of the Sixteenth Infantry, enlisted here the same day and were assigned to the same regiment. Although in the same regiment, they did not see each other while in France until last September, when Chapin, taken sick and sent to the hospital, found Dillavon, who was there suffering from three wounds received in July. That was the last time they saw each other until they stepped from the same train here. Both were discharged at the same camp, and evidently traveled home on the same train, but without meeting.

GRAIN OF CORN KILLS BOY.

St. Louis, Mo., June 13.—A grain of corn lodging in the windpipe of Paul Dorias, Jr., five year old son of Mr. and Mrs. Paul Dorias of Dardenne, St. Louis county, caused his death at the Jewish hospital.

The child was playing in a field with two playmates and had shelled some corn, placing the grains in his mouth. A remark made by one of his playmates caused him to laugh and the corn was drawn into his windpipe.

YOUR CATARRH MAY LEAD TO CONSUMPTION

Dangerous to Use Treatment for Only Temporary Relief.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Healthful Heat from a PIPELESS FURNACE

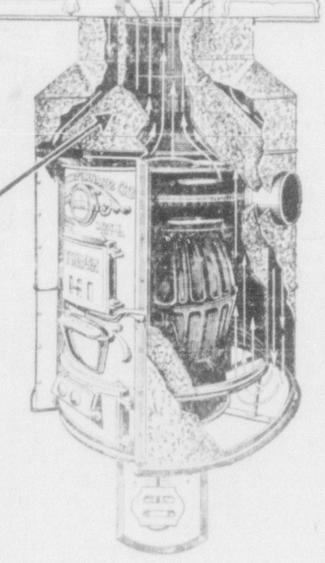
YOUR HOME is just as comfortable as your heating system is efficient. Cold and stuffy rooms, or rooms filled with comfortable, healthful heat of the proper humidity—which?

The Homer—the original patented pipeless furnace—answers the problem—sufficient moist warm air and proper ventilation. Simple in construction and simple in operation, the Homer warms and purifies all the air in the house with the least amount of trouble.

The Homer heats so satisfactorily because it works with nature in distributing the warm air to every nook and corner. There are no dust-collecting and heat-absorbing pipes.



You can get a Thermo-Seal inner lining only on a Homer

HOMER
ORIGINAL PATENTED PIPELESS FURNACE
with the Thermo-Seal inner lining

Whenever there is a fire in the Homer there is a circulation of pure, warm air in the house. The Thermo-Seal inner lining sees to that. The dead air in the house-heater then the warm air returns to the fire-pot, where it is heated, sterilized and moistened. Then it goes direct to the rooms you want warm and cozy.

The Homer is the only furnace with the Thermo-Seal inner lining—the special asbestos lining protected by two heavy sheets of galvanized steel. It keeps the heat from radiating into the cold air passage. It means perfect circulation.

The Homer does all its work through one combination register. And because it is so simple it costs less to install and operate than any other type of furnace.

It takes only a few hours to set up a Homer in any home, old or new, without tearing out the walls or making a mess.

Ask for "Their Own Words"—a booklet written by Homer owners. Let them tell you what the Homer is doing for them. "Healthful Heat" explains the Homer, the Thermo-Seal inner lining and the finished iron in detail. There are copies of those books for you at the dealer's.

If you are thinking of building a home, BUILD NOW—because prices of building material and building hardware will not be lower—and they are not high now compared with everything else.

THE INSTALLATION OF A HOMER FURNACE WILL CUT THE COST OF BUILDING A HOME.

Come in and let us show you this furnace, and let us take your order for future installation. Don't wait until it is too late.

Longchamps Set Fashion Pace.

Paris.—Startling new fashions in women's apparel have made their appearance at the Longchamps race course, where the Parisian smart set annually sets the styles. In addition to appearing with bare legs, the women are wearing extremely tight gowns, cut very short at the bottom and very low at the top. The arms are exposed unless covered by a cape.

Dressmakers declare the women's dresses are to be shorter than ever this season and are to be cut down further in the front and back.

Nothing is worn underneath the newest gowns but girdles and lingerie.

Paul Poiret and his fellow creators of fashion for some time have been working on the brilliant costumes that draw as many to the famous Longchamps as do the track events.

The blazes of costumed glory are now the more conspicuous by their absence during the past four years when Paris was practically in mourning. Never has the capital seen such gowns; the cuts and characteristics are the result of long study on the part of the artists who seek to outdo each other in their offerings for the world's attention.

The display at the recent races have compelled the interest and admiration of all attendant at the track and Parision fashion connoisseurs are as loud in their praise as are visiting foreigners, among whom are our own officers, several of whom have been well known designers and creators before joining the colors.

Monthly Conference Tonight.

The monthly Workers and Teachers conference will be held tonight at the Baptist church. Supper will be served at 6:30 o'clock.

Surprise Mr. Barrett.

After a few friends of Mr. and Mrs. F. H. Barrett had assembled at the J. O. Miller home Wednesday evening, June 11, they marched to the Barrett Merc. Co's. store and invited Frank Barrett to go to his home with them that they might help him celebrate his birthday. From the way he acted he knew nothing about the plans Mrs. Barrett had laid and was just a little surprised. The evening was pleasantly spent playing somerset and before the departure of the guests, dainty refreshments were served by the hostess. The guests included Mr. and Mrs. J. O. Miller, Mr. and Mrs. G. L. Owen, Mr. and Mrs. R. A. Walker, Mr. and Mrs. H. W. Montgomery, Mr. and Mrs. W. G. Reynolds.—Skidmore News.

Mrs. Denver Loch, a new member, was received into the club. The next meeting will be with Mrs. Pat Scott.

O'Malley-McElvain.

The following account of the marriage of Miss Grace O'Malley of Albany to Clifford A. McElvain of Redding, Ia., which occurred in Chicago Wednesday is taken from this week's Albany Ledger:

The many friends of these worthy people will be pleased to learn that Lieutenant Clifford A. McElvain and Miss Grace O'Malley were married at Chicago at 4 o'clock yesterday afternoon. The announcement does not come as a surprise to the friends, but all will unite in extending heartiest congratulations and best wishes.

Albany cannot boast of two finer young people than Clifford and Grace. The bride is the elder daughter of Mrs. Mary O'Malley and was born in Albany and spent most of her life here. She graduated from the high school at Maryville and then attended St. Mary's college at Norte Dame, Indiana, where she graduated with high honors. For several years she taught in the high school here, but last fall received an appointment to government work in Washington City, where she went in September in company with her mother, and where she had lived until the first of June. She possesses many graces which make her beloved by all who know her, and those of us who know her best realize her real worth.

Clifford has been more or less in the public eye during the past year or so on account of his war record and his having been captured by the eGrmans during an aerial combat the first of last August. After finishing his high school course he took a business education and for some time was assistant cashier in the Bank of Albany. He was among the first of the young men to volunteer for the officers' training school two years ago, and he was successful in winning a commission as lieutenant in aero service. He returned home a few months ago, having been honorably discharged. In company with some other men, he bought a bank at Redding, Iowa, and he is at present cashier of the institution. He is an intelligent and industrious young man of high character, and is full of business.

The happy bridal couple expect to go to Redding soon and begin housekeeping, where the best wishes of all will follow them.

TELL THE WORLD THIS WOMAN SAYS

That Lydia E. Pinkham's Vegetable Compound made Me a Well Woman.

Los Angeles, Cal.—"I suffered with female troubles for years, was sick most of the time, was not able to do my own housework, and I could not get help from doctors. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers, and took six bottles, and am a well woman. You can use my name to tell the world the good your medicine has done me as I shall praise it always."—Mrs. A. L. DeVine, 647 St. Paul Avenue, Los Angeles, Calif.

Women who suffer from any form of weakness, as indicated by displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues," should do as Mrs. DeVine did, and give Lydia E. Pinkham's Vegetable Compound a thorough trial.

For over forty years this famous remedy, which contains the curative, strengthening properties of good old fashioned roots and herbs, has been correcting just such ailments. If you have mysterious complications write for advice to Lydia E. Pinkham Medicine Co., Lynn, Mass.

POLICE SERGEANT ASKS TO BE MADE PRIVATE.

Springfield, Mass., June 13.—Police Sergeant Edward Carey has earned a unique distinction in petitioning to the Police Commissioner to be demoted to the rank of patrolman. The request has been granted by the Police Commissioner.

Carey was appointed sergeant several months ago as a reward for his splendid record as a patrolman. The work was not as fascinating as he had bargained for, however, as a sergeant is shifted at monthly intervals between the three watches and must often put in as many as ten and twelve hours a day making reports.

Accordingly, he came to the conclusion that a nice day job of eight hours with two days off a month is to be preferred to a sergeant's chevrons, a half dollar more a day and the honor of working many hours overtime.

Army Worm Outbreaks.

The Missouri College of Agriculture is receiving complaints of army worms in wheat, alfalfa and other crops. The complaints are coming from several different localities which seems to show that the pest is rather widely distributed. In some cases it is beginning to migrate.

To control the pest, says T. Haseman of the niversity of Missouri College of Agriculture, use the same poison bran-mash which was recommended last year for grasshoppers and cut worms. Mix dry fifty pounds of bran and two pounds of white arsenic or Paris Green and then moisten with a solution containing four quarts of blackstrap molasses, the juice and chopped up rinds of twelve lemons and about eight gallons of water. The mash should be just moist enough that a few drops of water can be squeezed from a handful of it.

Distribute the mash broadcast where the pest is scattered all over fields or distribute it in strips in front of the migrating worms where they are on the move. On cloudy days it may be distributed at any time but on hot clear days distribute it either early in the morning or late in the evening so that the worms will feed on it before it dries out too much.

The grasshoppers are also abundant in places in spite of the excessive rainfall of the past weeks and the same mash should be used to destroy the young hoppers before they do further damage and get ready to migrate to cultivated crops.

TALK OF DRAINAGE DISTRICT

Sentiment Strong for One From Ravenwood to Andrew County Line.

The following is from this week's Conception Junction Courier:

The recent floods have caused considerable discussion of the proposition of forming a drainage district along the Platte river in the south half of Nodaway and upper part of Andrew counties, but so far the land owners have not agreed upon how far north in this county the district should extend The sentiment in this community seems almost unanimously in favor of a district, if the north boundary is located not more than a mile and a half north of Ravenwood. The land owners in this part of the country realize that if the boundary line goes much northt of Ravenwood it will be necessary to cut the new channel through some very high land, for a considerable distance. This will prove very costly, and the land owners south of that cut will be taxed to pay this cost, although it will be of no benefit to their lands. It is generally conceded that a new straight channel would have prevented all the floods that have occurred this year and been a great saving to the farmers. We have been reliably informed that the new channel for the 102 has prevented floods, so far, this year, in the north part of Nodaway county, while the floods have been quite severe south of the new channel, which proves that straightening the river is beneficial.

COLORADO MAN HAD SUFFERED 25 YEARS

Relates His Experience With Tanlac and Wants To Help Others.

"Tanlac certainly helped me and I hope my experience with this medicine will encourage others to try it," said Antonio Lopez, who lives at Delta, Colo.

"I was a sick man for twenty-five years," continued Mr. Lopez, "and my stomach was in such a bad fix that for the last five years I wasn't able to eat any supper at all, and any kind of fruits or vegetables would cramp me so awfully that I never would touch them and I was simply miserable most all the time from the gas on my stomach. I lost considerable weight and at the time I started taking Tanlac, I weighed only a hundred and thirty-eight pounds.

"The few bottles of Tanlac I have taken built me up wonderfully and I actually gained ten pounds on my first three bottles. My stomach is in such fine conditions that I can eat anything including fruits and vegetables, without the slightest pain or trouble from gas, and I can eat as hearty a supper now as anybody and enjoy every mouthful, too."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burington Junction, Mo., and in Barnard, by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley; Ravenwood by C. A. Shunk. —Adv.

NOTICE OF SPECIAL ELECTION.

TO ALL THE QUALIFIED VOTERS OF THE CITY OF MARYVILLE, MISSOURI:

Public notice is hereby given to all the qualified voters of the city of Maryville, Missouri, that under and pursuant to the provisions of Ordinance No. 825 of said city of Maryville, duly passed by the Council and approved by the Mayor on the 31st day of May, 1919, a special election will be held in said city of Maryville, Missouri, on Thursday, the 26th day of June, 1919, for the purpose of voting on the proposition to authorize and empower the Council of said city of Maryville to increase the indebtedness of said city of Maryville in the sum of Fifty thousand dollars in addition to the regular income and revenue now provided by law for said city, by issuing and selling in the name and for and on behalf of said city of Maryville, bonds of the par value of Fifty thousand dollars, for the purpose of procuring money to enlarge, extend and improve the water works of said city of Maryville, and to levy and collect a special tax on the taxable property of said city of Maryville, in addition to the regular annual taxes now authorized to be levied in said city, to pay said bonds and interest accruing thereon.

The polling places for said special election shall be as follows:

First Ward—City Fire Station, No. 413 North Market Street.

Second Ward—Sewell Auto Company's, office, No. 114 West 4th Street.

Third Ward—Office of J. H. Gray, No. 114 West 2nd Street.

Fourth Ward—Office of Shoemaker-Bovard Transfer Co., No. 120 East 3d Street.

All in said city of Maryville, Missouri.

The polls will be opened at 6 o'clock in the morning and kept open until sun set on the day of said special election.

Tickets or ballots to be voted at said special election will be provided for voters in the following form "For increase of debt—Yes" and "For increase or debt—No." the former of which shall be taken as a vote assenting to such increase of debt of said city in the amount and for the purposes hereinbefore set forth, and the latter as dissenting therefrom.

If two thirds of the qualified voters of said city of Maryville voting at said special election shall vote "For increase of debt—Yes" then the Council of said city of Maryville shall be thereby authorized and empowered to increase the indebtedness of said city of Maryville, to the amount aforesaid by issuing and selling the bonds of said city to the amount of Fifty thousand dollars as aforesaid, for the purposes aforesaid, and to levy and collect a special tax as aforesaid to pay the principal and interest of such bonds, and to enlarge, extend and improve the water works of said city of Maryville, with the proceeds of the sale of said bonds.

Witness our hands as Mayor and City Clerk of said city of Maryville, Missouri, and the seal of said city, this 11th day of June, 1919.

a thrilling story of the last few minutes of the great world war.

"We began our last drive on the morning of Nov. 11," he said, "and most of our men were ignorant that the armistice was about to be signed. We advanced into the faces of a terrific Germans machine gun fire, and hundreds of men in our batallion were killed during the two hours just before the word came to cease firing."

Sergt Kelly stated that the men were completely wornout when the word came to stop and that as soon as the terrific thunder of the guns ceased, the men fell prostrate to the ground in heavy sleep.

Kelly received his citation for the Distinguished Service Cross at Trier, Germany, and the medal was pinned upon his greast by General Pershing, himself. The Croix de Guerre, with the star, was awarded to him at Brest, France, about two weeks before the Division sailed for this country.

Admiral Moreau of the French Naval service, made the personal presentation of the medal.

In addition to his great work in the Meuse-Argonne, Sergeant Kelly also took part in the St. Mihiel drive. After this offensive he was sent to an infantry school for 30 days before the opening of the Meuse-Argonne engagement.

Characteristic of all the men who have faced the greatest dangers of the war and who have looked into almost certain death, Kelly is modest about the honors which he has won. "I did not expect them," he said "and I only did what was expected of me. There are hundreds of fellows who have done great deeds of bravery which escaped the notice of the officers."

Mrs. Kelly, who was formerly Miss Mattie Clayton, met her husband at Kansas City Sunday and returned home with him last night.

OBJECT TO REPEAL OF WAR DRY ACT.

Missouri Christian Church Convention Raps Wilson.

Carthage, Mo., June 13.—Resolutions protesting President Wilson's recommendation for partial repeal of wartime prohibition were passed at the closing session of the Missouri Christian church convention here yesterday and officers of the conference were directed to send a message to the president expressing the uncompromising disapproval of the conference.

"We have been grieved and disappointed by the uncalled for concessions of President Wilson to the forces of intemperance," the resolution read, and they contain the further suggestion that upon the president's return to America he "acquaint himself with the true sentiment of law abiding citizens whose ideals he undertakes to interpret."

The resolutions also ask congress not to repeal the prohibition law.

Another resolution endorsing the League of Nations was amended to endorse "a League of Nations" to prevent war.

Officers elected for the coming year were:

President, L. W. McCreary, St. Louis vice president, J. W. Kilborn, Albany; recording secretary, George Buckner, Lamont; treasurer, J. W. Donaldson, Kansas City.—St. Joseph Gazette.

"DAMON AND PYTHIAS" BROUGHT UP TO DATE.

North Adams, Mass., June 13.—A modern version of "Damon and Pythias" was given in this city when Harold W. Weigert, a New York City bank clerk, was arrested by the local police for the Greenfield police on a charge of running into an automobile in that town and not stopping to report the accident. When Weigert was arrested a male companion with him in his automobile refused to leave him and went to the police station, where he was locked in the same cell with Weigert.
